7.Product Advantage

Step 1: We have 7 models of electric scooters. We already Review which ones you want.
We recommend 2 S1 and S1-2 at 7.5kmh before the lock is on go Where after fully charge.
We have 3 models of electric scooters, Foldable, Non-foldable, Foldable with seat and Non-foldable Cargo. Others.
Tire is made in gas inflation, Rubber, Local gel and Foam solid tires are powerful.
This is a great selling points and attractive point for users.

Step 2: You will need to choose a right solution for the amount and
Depending on the number of scooters, we will provide a free or very low price for a demo unit for you or your users.
We spend years to test and improve our Free App and SDK,WEB,IOS at least.
If you have no servers, or Phone App, you can use our App or server and let our server only packages to
Your App.

Step 3: After you choose a right model S1 scooter and solution for the company, we will take 1 month for new
Product development, and 1 month for testing and improvement, and 1 month for Mass production.
Before you order Milions scooters, we will release the version from Alpha to Beta.
If you have no idea after testing, the deposit will not be refunded.

Step 4: Before customer is approved, your company can sell scooters under your own brand.
Of the same time, you need to Review which solution or software Orange Tech Mobile is suitable or to go through
Your own Software development and Integration with our Hardware.

Step 5: Mass production is completed, we will ship Scooters to your place, or to the sea
We will Certified the factory to make sure and ship goods to you.
We offer 1 year technical support for software and hardware.
