THREE KINDS OF GEARS

Three gears are available for different scenarios, meeting the needs of different users.

Kids Teenager Adult

Gear 1 Gear 2 Gear 3

Gear 1 is for children and can be used indoors, while Gear 2 and Gear 3 are for outdoor use.

GOOD FOR SHOPPING AND LEISURE

Suitable for shopping and leisure

Lightweight and portable

Easy to carry and store

Lightweight Portable Easy to carry

Ergonomic Design
Improved Rider Adjustment Ability

Ergonomic design, suitable for people of different heights, improving the rider's adjustment ability.

Smooth and Safe Driving Experience

Equipped with high-quality shock absorbers, the vehicle provides a smooth and safe driving experience. The front and rear shock absorbers effectively absorb impacts from the road surface, ensuring a comfortable ride for the rider. The design of the shock absorbers not only enhances the vehicle's stability but also reduces the rider's fatigue, making long-distance travel more comfortable.

Convenient to Carry

The folding design makes it easy to carry and store. The vehicle can be folded quickly, reducing space occupation, making it convenient for users to carry and store in various scenarios. The folding mechanism is designed to be simple and reliable, ensuring safety and stability after folding.

Note

Model: EG-03-IC-PARAMETERS

MODEL: EG-03-IC-PARAMETERS

Product Parameters

Product Name: Electric Scooter	Product Model: EG-03-IC
Net Weight: 20.0 kg	Gross Weight: 23.0 kg
Product Size: 1100*400*1200 mm	Folded Size: 1100*400*1200 mm
Wheelbase: 1100 mm	Ground Clearance: 100 mm
Frame Material: Aluminum Alloy	Wheel Material: PU Wheel
Wheel Diameter: 200 mm	Wheel Width: 50 mm
Front Suspension: Spring Shock Absorber	Rear Suspension: Spring Shock Absorber
Front Brake: Disc Brake	Rear Brake: Electronic Brake
Motor Power: 1000 W	Motor Type: Brushless Motor
Battery Type: Lithium Battery	Battery Capacity: 36V 10Ah
Charging Time: 6-8 hours	Charger Output: 36V 2A
Max Speed: 25 km/h	Max Load: 120 kg
Climbing Ability: 15°	Climbing Height: 150 mm
Turning Radius: 1.5 m	Turning Radius: 1.5 m
Max Climbing Angle: 15°	Max Climbing Height: 150 mm
Max Load: 120 kg	Max Speed: 25 km/h
Product Color: Black	Product Color: Black

Product Dimensions

Product Features

1. **Lightweight and Portable**
   - Weighs only 20.0 kg, easy to carry and store.
   - Folded size of 1100*400*1200 mm, suitable for small spaces.
2. **High-Performance Motor**
   - Equipped with a 1000 W brushless motor, providing strong power.
   - Max speed of 25 km/h, meeting the needs of different users.
3. **Long-Lasting Battery**
   - Battery capacity of 36V 10Ah, supporting long-distance travel.
   - Charging time of 6-8 hours, with a charger output of 36V 2A.
4. **Stable Suspension System**
   - Front and rear spring shock absorbers, effectively absorbing road impacts.
   - Ensures a smooth and comfortable ride.
5. **Safe Braking System**
   - Front disc brake and rear electronic brake, providing dual safety protection.
   - Quick and precise braking response, ensuring safety in emergencies.
6. **Ergonomic Design**
   - Adjustable handlebar height, suitable for users of different heights.
   - Comfortable grip design, reducing fatigue during long-distance travel.
7. **Durable Materials**
   - Frame made of aluminum alloy, lightweight and corrosion-resistant.
   - Wheels made of PU material, wear-resistant and shock-absorbing.

Suitable Scenarios

1. **Urban Commuting**
   - Suitable for short-distance commuting in urban environments, avoiding traffic congestion.
   - Lightweight and portable, easy to carry on public transportation.
2. **Leisure and Entertainment**
   - Suitable for leisure rides in parks, campuses, and other venues.
   - Provides a fun and convenient travel experience.
3. **Short-Distance Travel**
   - Suitable for short-distance travel, such as from home to the nearest subway station or bus stop.
   - Reduces reliance on other transportation modes, saving time and costs.

Notes

1. **Pre-Ride Inspection**
   - Before each ride, check the battery, brakes, and tires to ensure they are in good condition.
   - Ensure the folding mechanism is locked to prevent accidents during riding.
2. **Safe Riding**
   - Wear a helmet and other protective gear when riding.
   - Do not ride on busy roads or in crowded areas to avoid collisions with pedestrians.
3. **Battery Maintenance**
   - Charge the battery regularly to prevent overcharging or deep discharge.
   - Store the battery in a dry and cool environment, avoiding direct sunlight.
4. **Weather Conditions**
   - Do not ride in rain or snow to prevent slippery roads affecting safety.
   - Avoid riding in extreme weather conditions, such as high temperatures or low temperatures.
5. **Load Limit**
   - Do not exceed the maximum load of 120 kg, to avoid damage to the vehicle and safety risks.
   - Do not carry passengers or heavy objects, ensuring the vehicle's stability.

Warranty and After-Sales Service

- **Warranty Period**: The warranty period for the vehicle is 12 months, covering manufacturing defects and quality issues.
- **After-Sales Service**: Provides technical support and spare parts replacement services, ensuring the vehicle's long-term use.
