Swappable Battery Design

Fengge
E-scooter Infrastructure for
Rolling Stock Management Platform

Fengge E-scooter mobile Ride-sharing Fleet is Swappable, Cooperate Stations, Battery swappable.

Electric sharing bikes and e-scooter are growing fast in recent years. It makes sustainability more easy for people and clean in the environment. It is great.

Electric sharing bikes and e-scooter are growing fast in recent years. It makes sustainability more easy for people and clean in the environment. It is great.

But for this revolutionary new ride-sharing economy.
There are problems.
