

Bicicleta eléctrica plegable pequeña, bicicleta de 3 ruedas adulta 250W

Los productos muestran:

A diferencia de la mayoría de las bicicletas eléctricas, plegables o no, EM-14s es un diseño especial. En primer lugar, es una bicicleta E Folable con carácter ligero y compacto.

En segundo lugar, es un diseño corto porque encontramos que la mayoría de las bicicletas plegables se doblan desde el centro del marco y luego se pliega. Sí, es pequeño de tamaño después de plegar, pero no es fácil de plegar y desplegar, ya que se necesita mucho tiempo para hacerlo. Cuando lo desfaldas, tienes que hacer más de 5 pasos. No es genial y divertido. Nuestro EM-14S no es así. Solo se dobla por un paso. Fácil y rápido. Sentirse elegante y fresco. Es fácil de llevar para levantar o llevar con usted, y fáciles de plegar y despliegue. La fácil operación te hace sentir que la vida es tan tranquila y hermosa.

Información de la empresa
