

Petit vélo pliant électrique, adulte 3 roues 250w

spectacles Produits:

Contrairement à la plupart des vélos électriques, pli-mesure ou non, EM-14S est une conception spéciale. Tout d'abord, il est un E-bike folable de caractère léger et compact.

En second lieu, il est à court de conception car nous avons trouvé la plupart des vélos pliants sont pliés à partir du milieu du cadre, puis se replient la tête. Oui, il est de petite taille après plié mais pas facile à plier et déplier car il faut beaucoup de temps pour le faire. Lorsque vous déliez, vous devez faire plus de 5 étapes. Il est pas cool et amusant. Nos EM-14S est pas comme ça. Il est seulement plié en une seule étape. Facile et rapide. Sentez-vous élégant et refroidir. Il est facile à transporter à soulever ou à transporter avec vous, et facile à plier et déplier. L'opération facile vous fait sentir la vie est si paisible et magnifique.
