Freego Headquarter

### Factory size

- 13-year Production Experience;
- Covers 20,000 Sq.Meters
- Monthly production:
  - eScooters - 20,000 pcs
  - eBikes - 15,000pcs
- Over 1 million e-Scooters were sold in last 10 years

### Freego Team

Engineering Team: 20 engineers & designers with average 10-year working experience.

Marketing & Sales Team: 18 staff with rich experience in International Sales and Branding.

Freego factories: 3 factories with 13-years of manufacturing experience.

Our main products are Electric Scooters and Electric Bikes. According to different application and market demand, we classify them as follows

### Electric Bikes:

- Mountain eBikes- City or hilly areas. Young people like.
- Off-road eBike (Fat tires) - 26, 20x4 inch fat tire. Riding on Sand (beach), desert, bumpy road, snow.
- City eBikes (commuting)- Folding, light weight. Use it for daily commuters.
- Electric Bikes for City Public rental- Ride share Business.

### Electric Scooters

- Electric Scooters for Kids, women and teenagers - Light weight users (less than 90kg)
- Electric Scooters for Men, Skilled Users - Heavy weight users (over 90kg)
- Electric Scooters for Suburbans or Off-road fun. - For adventure and racing.
- Electric Scooters for City Public rental- Ride share Business.

### Mobility e-Scooters (for the seniors and walking difficulties)

- 3 Wheel Seated eScooters
- 3 Wheel standing Scooters -Easy to fold and portable
- Conversion Kits to transform Manual Wheelchairs to electric

**Usually a good Electric Bike's production cost in factory is about USD300-USD500 without Lithium battery and the types of Brakes, Suspension and Materials**

Lithium battery are much different from 36V, 6Ah to 48V, 20AH. The price for battery pack is from USD40 to USD250 which are much different because of the battery cell quality and capacity. An e-Bike can be very cheap, low level strategy and it can be also high end ebike with Excellent quality and stylish design. As we all know low price products can be more competitive when you sell in your local market. Low price is a sharp blade that can kill everything.

In order to make you understand well, we can tell you the regular price for ebikes and eScooters.

### **Electric Bikes:**

- Mountain eBikes- About USD280 to USD550
- Off-road eBike (Fat tires) - About USD550 to USD750
- City eBikes (commuting)- About USD185- USD300

### **Electric Scooters**

- Electric Scooters for Kids, women and teenagers - From USD76 to USD180.
- Electric Scooters for Men, Skilled Users - From USD200 to USD400
- Electric Scooters for Suburbans or Off-road fun. -From USD400- USD1200

To meet some low-end market, we pick 4 models to help you make good selection for your local market. You can decide which model you will choose. **Good selection is the key to success. Be smart!**
