

Piccola bici elettrica pieghevole, bicicletta a 3 ruote per adulti 250W

I prodotti mostrano:

A differenza della maggior parte delle biciclette elettriche, pieghevoli o meno, EM-14S è un design speciale. Innanzitutto, è una foldable e-bike con carattere leggero e compatto.

In secondo luogo, è un design breve perché abbiamo trovato la maggior parte delle biciclette pieghevoli sono piegate dal centro del telaio e poi piegano la testa. Sì, sono piccole dimensioni dopo il piegare ma non facili da piegare e aprire quando ci vuole molto tempo per farlo. Quando lo spieghi, devi fare più di 5 gradini. Non è bello e divertente. I nostri EM-14 non sono così. È piegato solo da un passo. Facile e veloce. Sentirsi elegante e fresco. È facile da trasportare a sollevare o portare con te, e facile da piegare e divertirsi. L'operazione facile ti fa sentire la vita è così tranquilla e bella.
