Freego®

Folds In 3 Easy Steps

Flip, Fold, Clip

Fold-able design makes it convenient for storage. Simply flip down the folding lever to fold which is a compact and secure folding design that's perfect for stowing F14 Electric Scooter away at home and office. Do not put it into your car trunk because its length is over 120cm that is too large for trunk.

High-Powered Fast Moving

The Hub Contains A Motor

Its highly-tested 500 W rated motor can power the rider up to 35 km/h (22 mph). Max speed upto 35 km/h to give you extreme sports experiences. 35km/h speed and 60km range are good for long-distance commuters. With up to 60 km (37 miles) of range delivered by a combination of a large capacity battery (18 AH) and intelligent, regularly updated firmware, the F14 is designed to get you to your destination, reliably, and back home again on a pleasure basis.
