

Small folding electric bike ,adult 3 wheel bicycle 250w

Products shows

Unlike most Electric bicycles, fold-able or not, EM-14S is a special design. Firstly, it is a foldable E-bike with light and compact character.

Secondly, it is short design because we found most Folding bikes are folded from the middle of frame and then fold its head. Yes, it is small size after folded but not easy to fold and unfold as it takes much time to do it. When you unfold it, you have to do more than 5 steps. It is not cool and fun. Our EM-14S is not like that. It is only folded by one step. Easy and quick. Feel elegant and cool. It is easy to carry to lift or carry with you, and easy to fold and unfold. The easy operation makes you feel life is so peaceful and beautiful.

Company Information
